Baderloo are proud to offer 100 rams in our first Inaugural On-Property Poll Merino Ram Sale.

This year's sale is a true representation of the highly productive modern Merino we strive to breed. Our breeding values demonstrate a well-balanced animal excelling in both carcase and wool traits. The sale showcases animals carrying an elite fibre on a carcase with proven industry leading genetic traits to enhance the profit drivers of growth, survivability and fertility. Our genetics will ensure that our Merinos will not display any dominant traits that will ultimately have detrimental effects to overall productivity.

Combining holistic profit driving traits with a completely wrinkle free SRS skin allows our animals to express their true potential to reproduce in their natural environment under all conditions. We consistently see our clients achieve lambing rates in excess of 120% to 140%. We would consider our clients expectations to be to consistently mark 120%, with any results under this seen as below average.

Good wool cuts combined with fast early growth sees our clients turning their Wethers off earlier for a considerably higher profit and the excess portion of their Hoggets sold for a premium to restockers recognising the potential of these genetics and paying a premium for it.

We are very excited to welcome our existing clients for another ram selling season, and equally pleased to provide new clients the opportunity to have a taste of the success.

Daniel & Mel Hammat
